Moley Magnetics Rail Road Magnet Systems

ESB Battery Operated Magnet System

The most TROUBLE FREE, COST EFFECTIVE Magnet System on the market!

ESM Conventional DC Magnet System

The most COST EFFECTIVE, BULLET PROOF Traditional System on the market!

ESA Fully Enclosed Hydraulic Magnet System

The right system when QUICK CHANGING of attachments is desired. Great for Excavators!

ESA - Hydraulic

*ESA Fully Enclosed Hydraulic Magnet
The simplest Magnet to install and operate today*

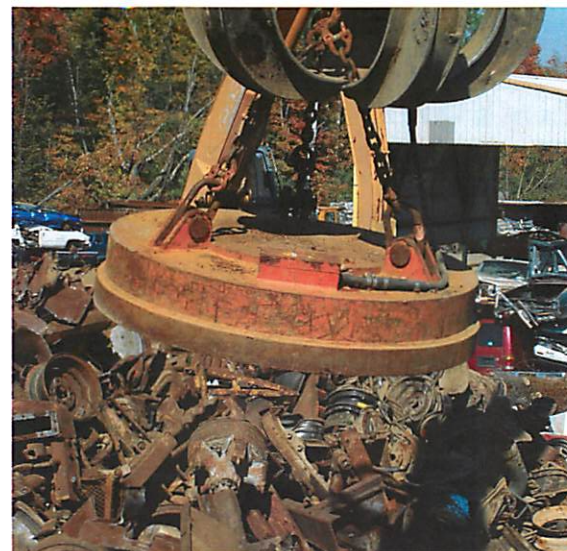

The ESA line of Hydraulic Magnets are robust heavy duty magnets ideally suited for demolition use or any other application where a quick changing attachment is beneficial.

SYSTEM BENEFITS:

- Ease of Installation: complete enclosed system - pump, generator and control box are mounted on top of the magnet
- Hook up hydraulic cables and go
- Available from 32" to 60"
- Lifting capability from 1,500 plus Lbs

ESM - Conventional

The ESM line of Conventional Magnets are robust heavy duty magnets manufactured for the rigors of the scrap industry.

SYSTEM BENEFITS:

- Low Maintenance
- Available from 30" to 63"
- Lifting capability to 2,200 Lbs
- Weight design allows for use on lighter machinery

HEIDEN[®]

Pallet Forks

MANUAL LEVELLING FORK HC10096-M54

FEATURES:

- 6000 Lb. Capacity
- 46" Long Times (24" CG)
- Manual Level Adjustment
- Weight 405 Lbs
- Made in USA

SELF LEVELLING FORK HC10097-54

FEATURES:

- 6000 Lb. Capacity
- 46" Long Times (24" CG)
- Self Levels at any Weight
- Gas Springs Virtually Maintenance Free
- Weight 420 Lbs
- Made in USA

HEIDEN[®]

Wallboard Fork

FEATURES:

- Adjustable to 60" wide (standard)
- Closes to approx. 3.50"
- Tines slides with multiple contact points for years of service
- Heavy Duty Check Valve Cylinder
- Heiden Strength and Reliability
- Made in USA

Log and Pulp Grapples

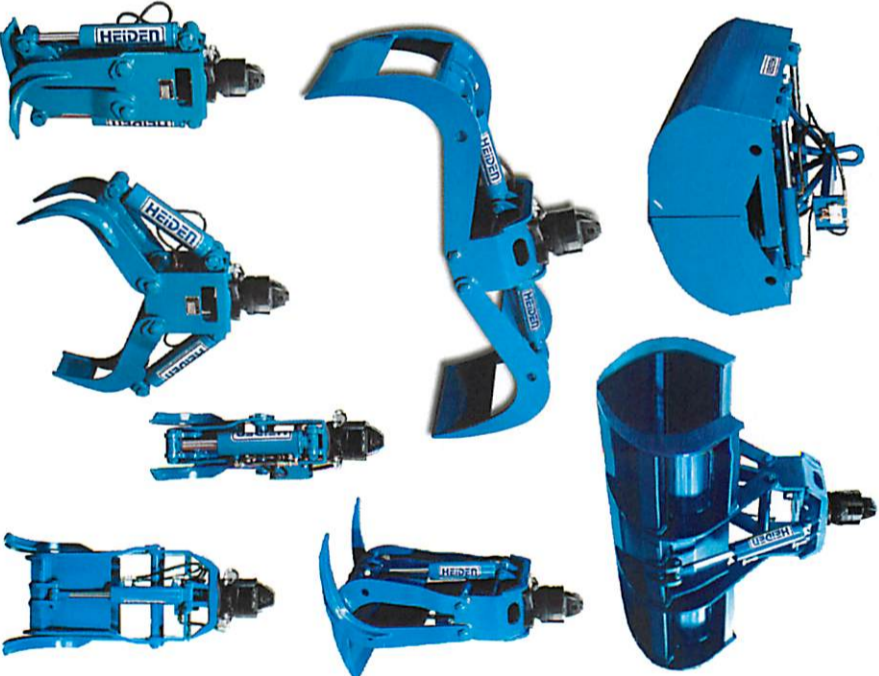

20 SERIES BUTT Style (B)

FEATURES:

- Head Design Good for "Bucking" Logs
- High Tensile Steel Throughout
- Jaws are Replaceable and Exchangeable
- Heavy Duty 1 1/4" Cylinder Pins
- Custom Sizes Available
- Made in USA

MOLEY[®] MAGNETICS INC.

ESB - Battery

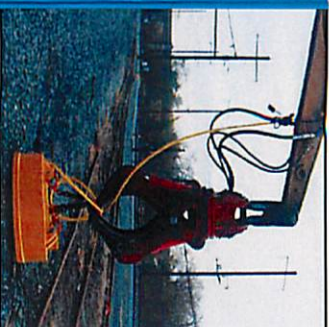

ESB Battery operated magnets are designed for the rail road industry

ESB 65
Voltage / Amps
12 or 24 Volts / 40 or 80 Amps
Weight
882 lbs
Weight Capacity (loose)
300 to 500 lbs
Weight Capacity (solid)
2000 to 2500 lbs

ESB 80
Voltage / Amps
12 or 24 Volts / 40 or 80 Amps
Weight
1058 lbs
Weight Capacity (loose)
450 to 600 lbs
Weight Capacity (solid)
3400 to 4000 lbs

ESB 92
Voltage / Amps
24 Volts / 80 Amps
Weight
1874 lbs
Weight Capacity (loose)
500 to 650 lbs
Weight Capacity (solid)
5000 plus lbs

Lifting Chains, Control Box and Control Cables included
